AUTOMOBILE ROUTES AND PACK TRAILS IN ROCKY MOUNTAINS AND SELKIRKS

Scale 1.792000 or 12½ miles to 1 inch.

Legend.

—x—x— Routes now used as automobile routes etc in course of construction and wagon roads which probably could readily and at no great outlay be constructed into automobile routes.

—o—o— At present pack trails which should have location thoroughly revised and in near future converted into automobile routes.

—·—·— At present pack trails which should have location thoroughly revised and made first class pack trails having in view their conversion into automobile routes in the future. The most travelled portions should be constructed as automobile routes as fast as the demand arises.

— — — — Trails used more or less at present to have location revised and cut out and made permanent and good pack trails as they possibly will be used only as such for many years.

Additional trails suggested by the Forestry Branch and now utilized or intended shortly to be by it.
